

Continuous Glucose Measurement (CGM)

Wearables.

Customer benefits:

- High tack of the adhesive to skin to ensure a strong bond immediately after application
- Strong bonding to ensure a long wear time of 28+ days
- Very flexible backing to allow the patch to conform to the skin to reduce the skin irritation during wear time
- Good breathability to allow moisture to escape

Products:

- DuploMED® 22791 / Highly elastic tape with nonwoven carrier (wear time of 14+ days)
- DuploMED® 85300 / Highly elastic tape with nonwoven carrier (wear time of 28+ days)
- DuploMED® 22507 / Double-coated tape with a thin nonwoven carrier
